

GERMANY TO SURRENDER TITLE TO WARSHIPS

DIRECT WORK ON HIGHWAYS FROM THIS CITY

Second District Office to Be Located in Dixon.

O. F. Goeke, of Aurora, representing the second district of the state highway department is in the city with County Superintendent of Highways L. B. Neighbour for a few days. Mr. Goeke is looking for suitable office location for the second district office which is to be brought to Dixon as soon as a suitable location can be secured.

In the past all of the road work under the supervision of the state highway department for this district has been conducted from offices in Aurora and Moline. Several months ago the Moline office was discontinued as a war measure and all of the work transferred to the Aurora office. At this time the Aurora office is busy taking care of the work in district number one and it has become necessary to re-establish another office for the second district work.

Dixon Centrally Located.
The fact that Dixon is centrally located and that the work could be handled from here with probably more satisfaction than some other town has been the cause of the state department deciding on this city for the location of the new offices. District Engineer H. E. Surman, who now has his headquarters at Aurora will have direct charge of the Dixon offices and from twelve to fifteen engineers will have their headquarters in Dixon.

Several of these engineers and draftsmen are married men and will move their families to Dixon to make this city their permanent residence place, and some of these men are now looking for houses, and are finding it quite a difficult task to find suitable homes. Mr. Goeke has assured those with whom he has visited here that Dixon will positively be honored with the district offices of the state highway department and that they will be brought here just as soon as suitable office rooms can be secured.

KOREAN TROUBLE UNDER CONTROL; WAS WIDESPREAD

By Associated Press Leased Wire
Tokio, Monday, March 17.—(Delayed)—Korean demonstrations continued on Saturday and Sunday, according to dispatches printed in newspapers and it is indicated the national independence is remarkably extensive and well organized in some of the strongest provinces of that country. Reports state that the railway station at Pingyang has been stoned by a mob of 10,000 persons, the Korean national flag being commonly displayed. There is some uneasiness at Seoul but the situation there is said to be under control.

The movement is notable for its extent, rather than its violence, among those prominently identified with it being government school students. Christian converts have been kept under control throughout the trouble by the missionaries, it is reported.

Newspapers here view the situation as very grave and announce that among those arrested in Seoul were three foreigners and nurses from the American hospital. Reports from the interior of Korea state that several police officers have been killed.

Tank Corps Comes Home From France

By Associated Press Leased Wire
New York, March 18.—Seventy-two officers and 1,588 men who fought with the tanks arrived here today on the steamship Europa from Marseilles. They comprised the 306th tank corps complete, 66 officers and 1,306 men, and a detachment of six officers and 282 men of the 305th brigade. They are assigned to fourteen camps and barracks throughout the country.

Mississippi Also Struck By Storms

Jackson, Miss., March 18.—North Mississippi suffered equally with the delta section from the tornado of yesterday, according to belated reports received here today. The heavy property losses at Blue Mountain, one death and many injured, were reported from that district.

Lodge-Lowell Will Debate on League

By Associated Press Leased Wire
Boston, March 18.—Arrangements for the debate here tomorrow night when U. S. Senator Henry Cabot Lodge and President A. Lawrence Lowell of Harvard university will discuss the league of nations covenant, were completed today.

Attorney P. M. James and William Leach, of Amboy, transacted business in the county court here Monday.

NO INTERURBANS Rains Have Caused Rails to Spread —Service Halted Until Tomorrow Noon—Two Off Today.

The continued rains, resulting in waterlogged ties and soft spongy ground in all the low places along the S. D. & E. interurban line between this city and Sterling, resulted in the suspension of traffic between the cities this morning, and it was announced by Superintendent Conner today that it is very probable interurban service will not be resumed until tomorrow noon.

The waterlogged ties and spongy ground have allowed the rails to spread easily and this morning two cars ran off the tracks because of this, following one car off at Prairieville, yesterday, the officials admitted the hopelessness of their task. The 9 o'clock interurban, west bound, left the rails at Prairieville this morning and when the work car was en route to the scene to get it back on the tracks, it too went on the ground at Drew's Corner.

MEMBERS M. E. CHURCH RAISED CENTENARY FUND

Dixon Church Exceeds Quota for Work By \$5,000.

The officers and members of the Dixon Methodist church are justly proud of their achievements in the Centenary movement, for a report made by those in charge of the campaign here shows that the local church has raised \$28,000 for that purpose, the quota of the church being but \$23,000. And more is still to be expected from some members of the church who are out of town.

When the Centenary movement was started by the Methodist organization it was planned to raise the sum of \$85,000,000—\$40,000,000 to be expended in furthering the church work in this country; \$40,000,000 in foreign lands, and \$5,000,000 in rebuilding churches in the war-swept areas of Europe, and to provide workers for those churches.

When this sum was decided upon the quotas of the many Methodist churches in the United States was fixed, and Dixon's church was called upon for \$23,000. Largely through the able direction of Rev. Lumsden, Dixon has more than met its quota, and every dollar of the subscription has been made voluntarily.

Many of the churches had not hoped to complete their quotas before Easter, but the local Methodists believed there was no time like the present, so they rallied to the call, with the result that they are now ready for a celebration of their achievement.

Search for Husband for Wife's Murder

By Associated Press Leased Wire
Long Beach, L. I., March 18.—An all night search by the authorities here, and in New York, failed to disclose the whereabouts of Dr. Walker Keene Wilkins, the elderly physician, for whom a warrant was issued last night charging him with the murder of his wife at their Long Island home, February 27.

Mrs. Wilkins was killed by burglars, her husband told the police, when she and the physicians were entering their home here. Yesterday the authorities learned of a document purporting to be Mrs. Wilkins' will bequeathing nearly \$100,000 to the physician. It was after he learned that this document had been found that he disappeared according to information which District Attorney Weeks of Nassau county said he had received.

Exports to Europe in 1918 Were Large

By Associated Press Leased Wire
Washington, March 18.—Exports of foodstuffs from the United States to the allies, neutrals, Belgium Relief, Red Cross and A. E. F., during the calendar year 1918, amounted to 5,095,987,010 pounds, of which 2,500,000,000 pounds were pork products and 1,250,000,000 pounds beef products, according to figures compiled by the food administration. During January of this year, the latest figures available, 434,822,925 pounds were exported, an increase of 215,210,285 pounds over January 1918.

ANNOUNCE CITY'S SHARE OF EXPENSE

The city's share of the special local improvement assessment for this year is about two thousand dollars less than last year, according to the figures submitted at this morning's session of the city council. The amount this year totals \$12,846.17. This and the semi-monthly bills, which totalled \$13,498.68 was read and allowed at the brief session this morning.

BRANDS UNJUST MUCH CRITICISM AGAINST Y. M. C. A.

Dr. E. F. Tittle of Evans- ton, Returned Worker, Tells of Great Work.

Criticism of the overseas work of the Y. M. C. A. was inevitable because of the magnitude of the task attempted, said Dr. E. F. Tittle of Evanston, a returned Y. M. C. A. worker, before the Men's club of the Y. M. C. A. last evening. Dr. Tittle explained in detail the criticism against the association and showed that much of it was unjust.

Admitting at the start that the criticism, in some instances, was legitimate, he branded as a lie many of the stories as regards profiteering, saying they were a part of a deliberate campaign to belittle the work of the Red Triangle.

Among Dr. Tittle's hearers were many of the leading business and professional men of the city who were satisfied in their own minds that he was in a position to speak the truth regarding the allegations against the Y. M. C. A.

"Y" Handed a "Lemon."

The canteen service was taken over by the Y. M. C. A. at the suggestion of General John J. Pershing, who admitted he was handing the association a "lemon." General Pershing explained that some organization must handle the work and that the Y. M. C. A. was best fitted to do so.

Dr. Tittle presented evidence to show (Continued on Page Six.)

START CENTRAL EXAMS ON MONDAY

Next Monday morning, March 24th, County Superintendent L. W. Miller, will start the three week series of central examinations which are to be conducted throughout the county. Grover Alexander is Enroute Home

By Associated Press Leased Wire
Chicago, March 18.—Alexander left station enroute to United States. This telegram signed by General Pershing, gave first definite assurance today that Grover Cleveland Alexander, premier pitcher of the National League, was on his way home to join the Chicago Nationals. The message was received by Fred Mitchell, president of the club. Alexander has been in Germany with the army of occupation.

FIGHT FOR HOME RULE STARTS IN THE LEGISLATURE

Advocates of Plan to Present Their Case to Committees.

By Associated Press Leased Wire
Springfield, Ill., March 18.—A variety of delegations are here today in the interest of pending legislation affecting Illinois cities, including Chicago. After a luncheon at the hotel for marshalling of their forces, the municipal delegates planned to go in a body to the capitol this afternoon where the first showing was to be made before the senate public utilities committee in the interest of "home rule" for cities over public utilities.

The Chicago delegation was headed by Chester E. Cleveland, special assistant corporation counsel, who is representing Mayor William Hale Thompson. Atty. Robert Watson of Alton, president of the Illinois Municipal League, and Mayor H. J. Rodgers of Jacksonville, chairman of the special legislative committee, was managing the campaign of the 150 cities embraced in the league.

Back Barr's Bill
The city representatives also are backing Senator Barr's bill permitting cities to tax up to two per cent without a referendum vote as a means of relieving the so-called financial strain on municipalities. (Continued on page 4.)

PARISH DINNER OF ST. PATRICK'S CHURCH SUCCESS

Over 600 People Enjoy- ed Spread and Pro- gram Monday Eve.

Success crowned the efforts of all concerned in preparing the first annual supper and entertainment for the benefit of St. Patrick's church in this city, which was held last evening in the Armory hall with about 600 persons seated at the tables. Despite the fact that the crowd was much larger than was originally expected the women were not detained in providing all with a bounteous supply of appetizing dishes.

Following the serving of the supper, Postmaster William F. Hogan, who was toastmaster of the evening in a few remarks, explained the purposes of the supper and entertainment, the first being a social gathering and the second, for the purpose of raising funds for the cleaning of the church. During the evening the supper music was furnished by the Marquette orchestra.

Chorus Pleased All
The chorus of about fifteen voices assisted several soloists during the evening. Miss Bessie Denny was the first soloist on the program, her number being followed with a talk by Harry Hogan, who told briefly of his experiences on the western front where he was wounded twice in one battle and incapacitated for several months. Mrs. William Rourke gave a very pleasing piano solo number after which Miss Marian Dixon sang, "A Little Bit of Heaven."

The first speaker of the evening was Attorney Martin J. Gannon, who was assigned to speak for ten minutes upon the subject, "The Ladies." He carried (Continued on Page Six.)

Shots Fired During Parade at Lawrence

EXTRA SESSION BEFORE JUNE 1 APPEARS LIKELY

Indications Are That Necessity May Force Wilson to Call One.

By Associated Press Leased Wire
Washington, March 18.—An extra session of congress before June 1 is believed to be a certainty by many government officials and members of congress, although their predictions are without the support of evidence to show that President Wilson has changed his determination not to summon congress before his return from France.

Cabinet officials are known to believe that the session will begin in May, some expecting the date to be about the middle of the month with others suggesting an earlier date, probably May 5. As far as known none of the cabinet members have specifically recommended any date to the president, but Secretary Glass is understood to have presented certain facts in regard to the government's financial situation from which the president may make his own deductions.

Members of congress remaining in Washington, particularly the Republicans hope that the session will be called two months before the end of the current fiscal year, next June 30, so ample opportunity will be given for considering appropriation bills that failed at the last congress. Republican Leader Lodge of the Senate has sent letters to all Republican senators requesting them to record their address of May 15 with his office, but this was said to be without significance.

DEPENDS ON TREATY

By Associated Press Leased Wire
Washington, March 18.—While White House officials said today it reports from Paris that the peace treaty might be completed next week proved accurate, President Wilson might return home by the middle of April. No information regarding the probable date of approval of a treaty has been received at the White House.

DIRT ROADS ARE HARD TO TRAVEL

The heavy rains of the past several days have made the dirt roads of the surrounding territory almost impassable. Farmers who have to travel these roads have been forced to abandon their automobiles and revert to faithful "old Dobbins," and in many cases two horses have been necessary to pull a light buggy through the heavy mud.

The recently constructed approach to the Florida Road bridge over the Illinois Central tracks is especially soft and hard to negotiate. Rural mail carriers out of the Dixon office have been able to deliver most of their mail, but are greatly delayed and Dudley Woodworth, carrier on route six, southwest of town, was forced to abandon part of his route today because of a bridge washing out.

470,736 Americans Had Sailed Mar. 13

By Associated Press Leased Wire
Washington, March 18.—Figures made public by the war department today showed that 470,736 officers and men of the American Expeditionary Force had sailed for home up to March 13. That number represented 24 per cent of the strength of General Pershing's forces on November 11 and left 1,478,530 in France.

Of the total returned home, or on the way, 176,516 were casualties, including sick and wounded. Out of 687,975 infantry in France in November, only 89,494 had been returned, while the field artillery figures showed 73,058 sent home out of 213,846.

FIXING BIG HOLE IN POLO HIGHWAY

OWNERSHIP WILL NOT BE DECIDED IN PEACE TREATY

Helgoland Forts Will Be Dismantled—Kiel Canal to Be Free.

BULLETIN

By Associated Press Leased Wire
Paris, March 18.—Disposition of German warships is not likely to be included in the treaty of peace, according to the view of the American peace delegation. Germany, however, will be required to surrender title to the ships. The ultimate ownership will be determined later.

HELGOLAND DOOMED

By Associated Press Leased Wire
Paris, March 18.—The fortifications on the island of Helgoland, Germany's formidable base in the North Sea, must be dismantled. This decision was reached today by the supreme allied war council. It was decided also that the Kiel canal should be internationalized and made available to the ships of all nations on even terms.

Toll would be collected to pay for the maintenance of the canal. Germany would retain sovereignty of the waterway. The council has under advisement the question of maintaining Helgoland as a port of refuge for peaceful craft.

CABLE SITUATION BETTER

Paris, March 18.—The British delegation to the peace conference, it was announced today, has consented to re-fer to the supreme council the question of the future ownership of the German cables to America. All parties interested in the question are preparing briefs.

ALL IN ACCORD

By Associated Press Leased Wire
Paris, March 18.—President Wilson will hold an important conference with Premiers Lloyd George, Orlando and Clemenceau at the Paris white house today. This meeting of premiers, representing the supreme directing forces of the peace conference, takes the place of the session of the supreme council, which has been postponed until tomorrow to permit the meeting.

The question to be discussed is the large one of securing accord between the great powers on all phases of the peace treaty and its early presentation (Continued on Page 2.)

STERLING MAN NEAR DEATH ON RAILWAY TRACK

James Egan, of Sterling, went to Amboy yesterday morning for the purpose of celebrating the birth of Ireland's patron saint. He accomplished his purpose and returned home by way of Dixon. He boarded the west bound passenger yesterday afternoon at 3:37 at the North-Western depot after falling on the platform several times as he sought out the vestibule of the coach and when the train crew discovered his condition about a mile west of town, the train was stopped and the passenger unloaded.

Egan wandered onto the tracks and narrowly escaped being ground to death beneath the wheels of train number 4 which passes through here at 4:11 in the afternoon. The members of this train crew reported the matter at the depot and the police were notified. Two railroad employees who were riding on a gasoline car following the passenger, stopped and removed the intoxicated man from his dangerous resting place to the right of way fence where he was found by Chief Van Bibber.

Egan was unaware of his narrow escape until notified early this morning in Justice George W. Hill's court. He is an old offender according to the police records and in times past has been the source of considerable trouble to the Dixon authorities. Justice Hill took all these things into consideration and imposed a fine of \$10 and costs which was paid and Egan returned home.

Women Street Rail Employees Get Jobs

By Associated Press Leased Wire
Washington, March 18.—Women street car conductors of the Cleveland (Ohio) Railway company, who were discharged March 1, must be restored to their work under a decision of the war labor board made today by Joint Chairmen Taft and Manly.

Sixty-four women will be affected by the order. A former order of the board was set aside by the new decision, which restores seniority and other privileges to the women workers.

NEW SUPERINTENDENT CHICAGO SCHOOLS IS MAN OF MANY IDEALS

Dr. Charles Chadsey, Who
Took Up Work Today,
Noted for Reforms.

TO GET BIG SALARY

Chicago, March 18.—Dr. Charles E. Chadsey yesterday began his four-year term as superintendent of Chicago public schools at a salary of \$18,000 a year, one of the largest salaries paid to an educator in America.

Many of the innovations added to Detroit's educational system during the seven years Dr. Chadsey was superintendent of public schools there are expected to be introduced into Chicago's school system.

Dr. Chadsey is an ardent advocate of applying psychology to education and one of his first acts on taking up the work in Detroit was to make the system meet problems of the individual student. Special classes were created for pupils of sub-normal and abnormal mentality. He also established special classes for deaf and provided open-air schools for tubercular pupils.

Dr. Chadsey bridged the gap between the grammar grades and the high schools by institution of junior high classes and junior high schools, which educators considered a big forward step.

Other Radical Changes
A radical change in teaching methods in Detroit also was brought about when Dr. Chadsey discarded the old plan of having instructors in the higher grades direct classes in several courses. His idea of having teachers specialize in one course, it is said, did much to increase their efficiency. It was chiefly through Dr. Chadsey's efforts that Detroit adopted the city university plan, enabling pupils to obtain higher education without leaving home.

A strong advocate of democracy and social equality in the school room, he brought about the elimination of fraternities in the Detroit high schools a year after his appointment.

Establishment of vocational classes, expansion of the technical school idea, increased high school facilities, and special care for crippled school children were other developments of Detroit's educational system during Dr. Chadsey's administration.

Dr. Chadsey, who was born in Nebraska City, Neb., October 15, 1870, was graduated from Leland Stanford Jr. university with the degree of A. B. and later obtained the degrees of A. M. and Ph. D. from Columbia. An honorary degree of L. L. D. was conferred on him by Denver university. He was superintendent of schools in Durango, Colo., and Denver, before coming to Detroit.

FORGOT SOMETHING.

Mrs. Styles—I know there's something I have forgotten for the christening tonight.

Mr. Styles—Have you invited the guests?

"Oh, yes."

"Sent word to the minister?"

"Yes."

"Got the cake and ice cream?"

"Sore."

"Cleaned the silver?"

"Most assuredly."

"Well, what else can there be?"

"Oh, I remember now! We've forgotten to decide on a name for the baby!"

Seems So.

"Have I known you a long time, mother?"

"Yes, dear. Every since you were born."

"And have I known father a long time?"

"Certainly. You have known your father as long as you have me."

"I guess we all got acquainted about the same time, didn't we, mother?"

Which Is Proof.

"Love is a game," sighed the happily miserable bloke, as he looked around for an appreciative audience.

"Well, it's a cinch it isn't a card game," responded the facetious feller, "cause people are always satisfied with the hand they hold."

Kieff Is Picturesque.

PERSHING MAKES INSPECTION 3RD DIVISION UNITS

By Associated Press Leased Wire
Coblenz, Monday, March 17.—(Delayed)—The men of the Third division of the American army, who fought against the Germans on the Marne in the last great German drive, were inspected, reviewed and presented with decorations by General John J. Pershing this afternoon. The review was held in the great aviation field near Andernach, on the west bank of the Rhine.

The reviewing stand was in the center of the field, the entire division sweeping by on both sides of the commander in chief when the bugle sounded "forward."

In addition to two congressional medals of honor and other American decorations, awarded the Third Division, a number of French and British medals were presented by General Pershing to men of the 42nd division, who fought with the British in Northern France with the 27th division. The medals of honor were given Lieut. George Hayes of Okereche, Okla. and Corporal Barkley of Missouri.

At the battle of the Marne General Dickman commanded the Third division and he occupied a place by General Pershing's side today as the troops marched past the reviewing stand. The 12th aero squadron took photographs of the troops during the inspection, returned to Coblenz, a distance of more than seven miles, developed the plates, returned and dropped twenty photographs for General Pershing, Dickman and Howse all in fifty minutes.

PERSHING SPEAKS HIGHLY OF WORK DONE BY WOMEN

Praises the American
Woman for Her Loyalty
and Courage.

By Associated Press Leased Wire

Coblenz, Monday, March 17.—(Delayed)—Praise for the part taken by American women in the war was expressed this morning by General John J. Pershing while inspecting five Third army evacuation hospitals here.

"Without doubt America could not have carried out her part in the conflict as she did if it had not been for the willingness and courage of the nurses and others who came to care for the sick and the wounded in France and the loyal support of patriotic women at home," he said. "Despite the fact that America was in the war only a comparatively short time her medical and hospital service was not exceeded by that of any foreign nation."

At each of the five hospitals he talked informally to nurses, doctors and orderlies, telling them of the important work still to be done in caring for the sick and injured. He talked to many of the patients and visited virtually all the wards of the hospitals, where approximately 3,000 Americans are patients. These hospitals were erected by the German government and used by the enemy during the war.

At one hospital he visited a number of American soldiers. The plan of treatment being to keep the minds of the patients on anything rather than themselves.

OWNERSHIP WILL NOT BE DECIDED IN PEACE TREATY

(Continued from Page 1.)

to the Germans. It is expected an agreement will be reached as to the inclusion of the league of nations, as an integral part of the peace treaty. In accordance with the resolution which has been already adopted by the peace conference.

Early Peace Is Object.

Special interest attaches to today's conference in view of recent reports of divergences between the powers as to the inclusion of the league plan in the treaty. The meeting is looked upon as an earnest effort to reconcile all views into a common understanding for an early conclusion of peace in a comprehensive form, including military, naval, economic and financial terms, as well as the league of nations.

The general situation as to the peace treaty has been greatly clarified during the past 24 hours, by discussions between the heads of various delegations, and American commissioners took the view today that the attitudes of the American, French and British governments would be brought into entire accord.

The conference which has been held by Lord Robert Cecil of Great Britain, Leon Bourgeois of France, and Colonel E. M. House of the United States, have reached a tentative accord, and there is reason to believe that today's meeting will approve the action this taken.

Present plans contemplate the completion of hearings given neutral nations on the league of nations during the present week and during the succeeding week to boundaries reparation and other branches of the treaty. It is believed that the revised covenant will be ready at the end of next week.

Our Difficult Language.

Apologues of the difficulties that our foreign-born friends experience in learning "United States," a subscriber writes: "A boy born a Dane and raised in a German family came to me and said: 'Will you borrow me your wheelbarrow?' and when he saw me smile he said, 'I mean, can I lend it from you?'—Outlook.

Evolution of Clothes Terms.

Dozens and dozens of clothes terms there are that indicate the evolution of clothes among our ancestors. Petticoat, which has been used as a not very respectful synonym for women in general, was a garment for men originally, and was the undercoat worn beneath the heavier overcoat. It was fairly long, and eventually the word came to be applied to the garments that evolved from this "petti," or small coat.

ST. PATRICK'S SHOWER

A delightful little surprise was given Mrs. Elmer West, entertaining the members of the Golden Rule Sunday school class of St. Paul's Lutheran church last evening, when she was presented with a green umbrella, in honor of St. Patrick's birthday. But like a typical Irish whimsy, the umbrella was not of the slightest use in warding off showers, as it contained the shower within, and as Mrs. West raised it, handkerchiefs rained down upon her. To each handkerchief was attached a card and thereon a verse, expressive of the regret the girls of the class felt in losing Mrs. West, as she is to leave tomorrow for Madison, Wis., to make her home. St. Patrick was remembered again in the table decorations, which were in green, favors, place cards, nut cups, etc. Fifteen members of the class, which is taught by Miss Minnie Johnson, enjoyed the evening together.

IRREGULARLY-TIMED MEETING

The "Come-When-You-Please" club held one of its irregularly-timed meetings at the home of Mrs. Davis Boos yesterday afternoon, and what was most strange, never notified the hostess, carrying out the affair as a surprise to her in honor of her birthday, which is co-incidental with St. Patrick's in day though not in years, of course. As Mrs. Boos was to entertain in the evening and had St. Patrick's decorations about the room, the members felt that everything was quite perfect, even to decorations, for their entertainment. They presented Mrs. Boos with a handsome piece of aluminum ware and as they had brought with them the where-withal for a scramble luncheon, this was enjoyed during the afternoon.

P. E. O. MEETING

Mrs. Clinton Judd entertained the members of Chapter A. C. Illinois P. E. O., at the regular meeting Monday afternoon. The constitutional drill was in charge of Mrs. C. H. Ives and was ably conducted. An article of great interest on "Musical Education of Children," written by Schumann-Heink was read by Mrs. Harry Roe. In honor of Mrs. E. H. English, whose coming departure is greatly regretted by members of the chapter, the usual custom of not serving refreshments was abandoned for the time being, and delicious ones served by Mrs. Judd and her daughter, Miss Grace.

SHOWER FOR MISS CASTLE

Miss Gertrude Castle was made the honoree, in view of her approaching marriage of a St. Patrick's luncheon and shower last evening at the home of Mrs. Dave Boos. The guests were members of the Hoi Polloi club and a number of their friends. The luncheon table appealed to all, son of Erin or otherwise, prettily decked out as it was in green and white. Green and white carnations centered the table and covers were laid for twenty-one. During the luncheon a large box in the shape of a shamrock was presented Miss Castle.

AT DR. SICKELS' HOME

Major I. Earle MacLaren and Mrs. MacLaren came Saturday from Camp Zachary Taylor, Louisville, Ky., where the major recently received his discharge as commanding officer of the 326th Field Artillery, 84th division, and are guests at the home of Dr. Sickels. Major and Mrs. MacLaren expect to leave here in the course of a week or two to visit at the former's home in Tucumcari, New Mexico. Mrs. Anna Austin, Mrs. MacLaren's mother, is also a guest at the Dr. Sickels' home.

O. E. S. PARLOR CLUB

Members of the O. E. S. Parlor club were the recipients of delighted exclamations yesterday afternoon when they came to the regular meeting at Masonic hall, "a-wearing of the green," in very truth. The decorations were also in accord with St. Patrick's day and the refreshments served were made with Ireland in mind. Mrs. Dunavan and Mrs. Ellis Mason were the hostesses. The attendance was large and the afternoon was enjoyable passed, some at card tables.

DINNER FOR HONOR MEN

Mr. and Mrs. Louis Biester, of Sublette, entertained at a roast goose dinner Sunday, Mr. and Mrs. Frank Fraser, of Chicago, Mrs. Anna Mead, Miss Jennie Loan, Mrs. Frank Lett and sons, and Mr. and Mrs. Lee Kreitzer, of Dixon, Harrison Paige, Conrad Ertel, Mr. and Mrs. Fred Biester. The dinner was given for the four honor men recently discharged from the army, Lee Kreitzer, Harrison Paige, Conrad Ertel, and Fred Biester, the latter a son of the hosts.

LIEUT. PRATT HERE

Lieut. James W. Pratt of the 54th Coast Artillery, who has been in France since just before the armistice was signed last October, arrived here yesterday to make a few days' visit at the home of his uncle, Frank Pratt, of East Fellows street, before returning to his home in Tacoma, Wash. He is the son of W. H. Pratt. Lieut. Pratt arrived in this country about a week and a half ago.

ENTERTAINED CIRCLE

Mrs. Charles Bush, assisted by her sister, Mrs. Buchanan, entertained very pleasantly last evening the members of the Golden Rule Circle of the Grace Evangelical Sunday school. Fifteen members of the circle were present and enjoyed a social hour after the transaction of business. Refreshments were served by the hostesses.

PLAN G. A. R. CIRCLE SALE

Ladies of the G. A. R., Dixon Circle No. 73, held a very interesting meeting in G. A. R. hall last evening with a good attendance of officers, members and comrades of the Dixon post. Plans were completed for the apron and food sale which the ladies will hold two weeks from Saturday, or April 5th. The place of the sale will be announced later.

CANDLELIGHTERS' SUPPER

The Candlelighters' of the Presbyterian church entertained their husbands at the church last evening with a scramble supper. Adding to the enjoyment of the evening were speeches made by the pastor, Rev. J. H. Tidball, on the New Era Movement, and by Lt. Victor Hoersch, recently returned from overseas, who related some of his experiences at Chateau-Thierry.

AT PRESBYTERIAN MANSE

Lieut. Victor Hoersch, of Davenport, Ia., is visiting at the Presbyterian manse. Lieut. Hoersch is a cousin of

Mr. Tidball and was severely wounded in the battle of Chateau-Thierry on July 1st. He has just been discharged from the hospital and has completely recovered from his wounds.

ATKINSON-WOLF

This afternoon at 3:30 at the parsonage of St. Paul's Lutheran church in this city the marriage of Miss Cordelia Wolf, daughter of Mr. and Mrs. J. U. Wolf, of Nacusa, and Byron L. Atkinson, son of Mr. and Mrs. Joseph Atkinson, of east of town, took place.

It was a very pretty wedding with the bride, who is particularly sweet and winsome, attired in a pussy willow tulle gown with silk fringe trimming it. A string of pearls was the only jewelry worn. A corsage bouquet added a touch of color to the costume.
Mr. and Mrs. Harold Emmert and Miss Mary Wolf, the latter the bride's sister, witnessed the ceremony. Rev. F. D. Altman read the service, using the ring ceremony.

This evening at 6 o'clock Mr. and Mrs. J. A. Wolf will entertain at a dinner party and reception in honor of their daughter and her husband and tomorrow the bridal couple will leave for Plainfield and other points in Iowa, where they will visit relatives for a time. Upon their return they will take up their residence upon the farm of the groom's father near Dixon. The bride wore as her traveling costume a handsomely tailored suit in midnight blue with hat and other costume accessories in accord.

Both the bride and the groom are held in the highest esteem by all. Mr. Atkinson has but recently been honorably discharged from the service.

E. R. R. CLASS MEETING

The E. R. R. Class, of St. Paul's Lutheran church will hold its regular business and social meeting Thursday evening at the home of Mrs. Julia Hubbard, 321 East Chamberlain street. Miss Mensch will assist Mrs. Hubbard in the duties of hostess. All the members are requested to respond to roll call with a verse of scripture or a quotation of some kind.

RETURN TO DIXON

Mr. and Mrs. Samuel Hughes have returned from Rock Island, where Mr. Hughes was employed in the arsenal, to again make their home in Dixon. They are at present with Mrs. Hughes' mother, Mrs. Olive Dale.

CONGREGATIONAL MISSIONARY

A meeting of the Congregational Missionary society will be held at the home of Mrs. F. M. Derby, 1010 Third street, Wednesday at 2:30 p. m. All the ladies of the congregation are invited to attend.

COMPANY F DANCE

Company F will again give one of its popular military dances on Friday evening at the Armory hall. Music will be furnished by the Marquette orchestra.

C. C. CIRCLE

The regular meeting of C. C. Circle will be held Friday afternoon at the home of Mrs. J. H. Dunavan. It is hoped that all members will attend.

CHURCH DINNER

The Baptist church ladies will serve a dinner of especially attractive menu at the church Friday noon. A liberal patronage is solicited.

UNITY GUILD

A meeting of the Unity Guild will be held Thursday afternoon with Mrs. Charles Herrick.

The Perfect Bull Terrier.

The modern bull terrier is the result of very careful and intensive breeding. It is now a well-defined type and has lost almost all the characteristics of its ancestor, the bulldog. It must be pure white, except for the nose and eyes, which must be black. Any other marks, while they do not disqualify in the show ring, are considered undesirable.

The Art of Living.

The art of living economically and satisfactorily lies in learning how to think ahead, knowing how to buy for less and then in finding new and palatable ways of preparing the foods that are really cheap and abundant.—Exchange.

THE PROMOTER'S WIFE

By JANE PHELPS

BARBARA BEGS NEIL TO TELL OF HIS RELATIONS WITH BLANCHE.

CHAPTER XLIV.

After dinner was over we played bridge, two tables. Of course I did not play with Neil, and was seated so I could not see him. But I knew he could talk anything save trivialities during a game, so gave my attention to my cards, winning compliments upon my playing from my partner—a quiet, middle-aged man whom I rather liked. As I looked back on the main crises of my married life, it seems to me that it has nearly always been some ordinary thing like bridge, or dancing, that has helped me over them, and that has enabled me to hide my feeling successfully.

Foolishly, I did not wait until we reached home to question Neil. "What in the world were you and Mrs. Orton arguing so earnestly about?" I asked as soon as we were seated in the car.

"We weren't arguing." "Oh, yes you were!" at the table. I saw Lorraine looking at you in such a queer way, it attracted my attention. "We were talking of a little business." His tone was cold, and did not invite further remark.

"But what business can you have with her?" "She owns stock in some of our companies, if you must know."

"Is it making her money?" Neil looked at me thru narrowed lids. Never had I seen quite that look in his eyes. Most women, I believe, wake up suddenly rather than slowly, to anything that savors of a difficult situation. But invariably if we look back we see that it has been existent for some time; that many events have led up to it—particularly if the situation is a marital one.

I repeated the question. "Not lately," he replied, then looked mildly out of the window.

"Neil," I said slowly, "I don't know what it is, but there is something you will not tell me—something connected with Blanche Orton, your relations with her."

"For heaven's sake, Babe, are you going to play the part of a jealous wife?" I saw plainly that Neil did not intend me to say any more to him, that he did not mean to tell me anything,

yet I persisted.

"I don't know what is wrong, Neil. But I am sure there is something. I have been so wrapped up in the baby, that I have been blind to other things. I never have been your partner, but I have not been so shut out of everything as I now am: I am sick to death of not knowing things. I want you to begin tonight. We'll start all over. You tell me the things which I, as your wife, should know. I feel that our future happiness depends upon perfect confidence between us." I laid my hand on his knee, and leaned my head against his shoulder. We were nearly home. It would not be easy to take the subject up again. I wanted an answer now.

"You tend baby. I'll look after other things," he said more gently than he yet had spoken, but with a weariness in his voice. And he moved the arm against which my head rested uneasily.

For a moment I felt helpless. I had an impulse to carry on the conversation—to insist upon knowing what the earnest talk with Mrs. Orton portended, even though I precipitated a quarrel. Then I hesitated. I would not be tactless; there were other ways by which women advised themselves of things they wished to know. I would also find some way to satisfy myself.

Neither of us talked much when we reached home, but Neil was cross and nervous. He sent me off to bed, but he sat up late working in the library. Once, when I crept near the library door to see what he was doing, I heard the rustle of papers, and went quietly back without disturbing him.

It was long before I slept. The doubts so long quiescent, had once more taken a hold upon me and kept me wide-eyed, wakeful.

Tomorrow—Barbara Finds Proof of Check Given Neil by Blanche Orton.

Novel Dance.

The word "ball," as applied to a dancing party, came to be used in the first instance from an ancient "ball play" given in church by the dean and choir boys of Naples during the Feast of Fools at Easter. At subsequent dancing parties in Naples the dancers threw a ball at one another to the sound of their own singing. They whirled about in measured time, and the sport consisted in loosening hands in time to catch the ball.

Printzess Week March 17 to 22

Personality in Dress

That very human desire which prompts a woman to choose differently from her neighbor is best gratified in the choice of a Printzess suit. Made of soft, all-wool quality materials, tested and pre-shrunk, and exquisitely tailored you will find in every garment the individuality and distinctiveness which has given Printzess labeled goods a nation-wide reputation.

We have on display a very complete line of Printzess suits. We esteem it a privilege to show these superior garments. We want you to drop into our garment department and note for yourself the fine texture of the fabrics, the exquisite tailoring and smart lines. Quality made to a quality ideal—a Printzess suit reflects the far-sightedness of the wearer. Come in today while the assortment is at its best. We want you to know "Printzess Distinction in Dress."

Coats With Distinction in Every Line

We are showing the new spring models in Printzess coats. Coats with distinction in every line, made by a house of national reputation from lovely all-wool quality materials. Beautifully lined with the best of satins, exquisitely tailored, hand-finished—you will find in each garment the distinctive individuality that every woman appreciates.

We want you to see these coats for yourself—to try them on—to examine them thoroughly. We know this will mean the purchase of a Printzess coat when you are ready to buy. Our sales force is at your disposal. We consider it a pleasure to show Printzess garments, thereby adding to the ever-increasing number of women who know what Printzess "Distinction in Dress" really means.

OUR "EATS."

One hundred years ago a London
quid and glutton named Hugh Pad-
dington had a Hungarian miller grind
the world's first white flour so that his
bread would match the tablecloth. The
fad spread among the smart set, became
common—and a new food was added to
man's bill-of-fare.

Thirty-three years before that, pota-
toes were considered fit only for pigs.
Ben Franklin scoffed at them until in-
vited in 1786 to a potato dinner given
by Parmentier, the great character in
French history who introduced potatoes
to the family table.

Talk that over at dinner tonight.
Consider how food has changed in
the last century. A few generations
from now, when our great-grandchild-
ren sit down to their evening meal,
will they eat foods now unknown to us?

Older folks can cast an eye over the
1919 table and list many things that
have arrived within their memory.
Grapefruit is a modern food. A few
years back it grew only in the West In-
dies where the natives thought it poi-
sonous. Ice cream was unknown until
163 years ago when Sambo Jackson,
New York pastry expert, made the first
dish of it by accident. Grandma, can't
you remember when tomatoes were called
"love apples," supposed to cause
cancer and rarely appeared except on
the sitting-room mantel?

Prehistoric man lived on flesh, fish,
fowl and fruit. Slowly he added to his
menu. Black bread and olive oil in
sealed urns have been found in ancient
Egyptian tombs.

The art of cooking originated with the
Greeks and was borrowed by the Ro-
mans. The Italians gave the world mod-
ern cookery—taught French chefs their
trade. They even invented the fork and
spoon. England followed France, pro-
ducing the famous chef families, Cooke
and Coke.

Eternally man seeks novelty for his
palate—in Mexico, parrots; in northern
Sweden, earth baked in bread for its
supposed medicinal value. The savages
of the Sudan dote on ants, Brazilians
on butterflies. Digger Indians eat dried
locusts.

What of the future—man's food a
century from now?
Will he carry his lunch in a pill box?
Will wifery urge, "Eat the green pill
last—it's dessert?"

No, say the German scientists who
to keep the Huns from starving during
the war, tried every food substitute
from sawdust to drugs that stop hun-
ger pangs.

These experts decided that artificial
or even concentrated food is a failure.
Butter, for example, is four-fifths pure
fat. This, according to Dr. Robert
Hutchinson of Edinburgh, is the abso-
lute limit in condensing of food values.

It is all very fine to talk of calories,
proteids, albumose, carbohydrates and
peptone; but man requires food with
bulk to it—the filling stuff that sticks
to the ribs.

Strange may be the changes of the
next century. Refrigeration schemes
may be hit upon to bring to American
tables the fine steaks and roasts of car-
ibous that run wild in herds of hun-
dreds of thousands in the Yukon and
northwest territories. Canadians al-
ready are preparing to market reindeer
meat. Wild Hudson Bay tea may be-
come common. Bitter flour from white
moss, the food of mountain sheep, may
be a familiar sight at the 1990 grocery
store.

Undoubtedly the world will soon have
foods unknown today, but chemicals can
never take the place of real stuff like
pancakes, corned beef and cabbage and
pie—in the stomach or sentimentally.

THE ATTIC.

A woman who had lived in the same
house for ten years mounted her attic
stairs to give the attic its spring clean-
ing. With a sinking heart she viewed
the motley collection from beds to old
rolls of wall paper, and considered how

ABE MARTIN

"It's hard enough to settle down af-
ter you've been in Niagara Falls, but it
must be awful after you've been in
France," said Tell Blinkley, today. If
George Washington never told a lie, he
must have been mighty non-committal.

much of it had stood there unused
since last she cleaned.

With the exception of a few things
put up there for seasonal storage—real-
ly a part of her household equipment—the
whole lot had stood untouched ex-
cept for the annual cleaning, a happy
hunting ground for moths and dust.
Some of it dated back to the time ten
years before when she had moved into
the house.

It had cost her rent to house more
things than she used, needless stair-
climbing, the arduous labor of cleaning,
the mental disquiet of accumulated
things, and worst of all, her false econ-
omy had robbed the poor, for there were
many articles which would have made
a needy home more comfortable.

The woman decided that her test for
further saving of any of the things
should be whether an object had come
to its second cleaning without being
used, she and her family living comfort-
ably without it in the meantime. If so
it must go. If usable it must go where
it would be used; if not usable it must
go to the rubbish man.

There is little need to sum up the re-
sults. There is one attic which is not a
bugbear, there are poor homes made
more comfortable by needed things;
there is one woman in better physical
and mental condition. Such house-
cleaning is worth while.

By contrast, think of attics that are
never cleaned—attics to which things
are constantly being carried up, noth-
ing ever taken down!

CONGRESS MEETING DATE.

One important piece of legislation
that should be given the force of law as

soon as possible after President Wilson
finally decides to call the new congress
in session is a bill setting March 5 in
every odd-numbered year as the date
for the convening of the first session of
every new congress. The constitution
directs that "congress shall assemble at
least once in every year, and such meet-
ing shall be on the first Monday in De-
cember, unless they shall by law appoint
a different day." Previous to 1820
eighteen acts were passed by congress
for meeting on other days of the year,
but since that time the first Monday in
December has always marked the con-
vening of every regular session.

The American people render a verdict
early in November of every even num-
bered year. They elect a new congress.
Sometimes, as was the case last Novem-
ber, the complexion of the old congress
is most decidedly changed. When such a
verdict is rendered it means that the
people are dissatisfied with the policies
of the old congress. They want a new
deal. They should have it without un-
necessary waiting. With the December
date for the meeting of congress, the
people must wait thirteen months be-
fore their verdict can begin to have
effect.

This should not be. The new con-
gress should meet not more than four
months after the election. In the old
days it took more than four months to
ascertain definitely who was elected.
The December meeting date should now
be voted to be obsolete. We should not
be obliged to wait for action for thir-
teen months because it had to be done
a hundred years ago.

CREEL IS HELPFUL.

George Creel triumphantly announces
that his committee on public informa-
tion has been "virtually" self-sustain-
ing. He has resigned from the chair-
manship, but he denies that it is because
of any differences with President Wil-
son. Thus a fear will be created in the
public mind that his resignation will
not be accepted. Not only should it be
accepted, but the committee should be
abolished. Mr. Creel further announces
that his plans for the future are not ma-
tured, but that he will take an active
interest in political affairs, "much as a
humble assistant in the de-lousing pro-
cess of which our public life stands so
much in need." Of course his resigna-
tion helps some in this direction.

Hardener of Steel.

Molybdenite, chiefly found in Tas-
mania, is used for a variety of pur-
poses, but its principal value is in the
manufacture of steel, to which it gives
a hardness and toughness that makes
the steel suitable for use in propeller
shafts, guns and boilers.

PEOPLE'S COLUMN

SOLDIERS MEMORIAL.
Editor of Telegraph: At the close of
the Civil War in 1865 the citizens of
Palmyra erected a monument for her
soldiers who took part in that great
struggle. For nearly fifty years this
was the only permanent recognition
made by Lee county for the men who
went forth to save the Union.

The question now arises is Lee
county to do the same by the men who
have gone forth from Lee county in
the great World War. It seems as if
some lasting recognition ought to be
made to show our appreciation of the
men who have so recently gone from
the homes of our county in the defense
of the nation.

We ought not to wait until these
men are dead and then erect them some
costly monument, but now while these
men are living, erect some lasting
recognition of their services.

Why could not the names be placed
on marble tablets and these erected on
the walls of the corridors of the court
house? The cost would not be great
and there is no doubt that each town
in Lee county would see that the names
of her soldier and sailor boys would be
placed on an appropriate tablet in our
court house. FRED A. LAWTON.

MARINE WORKERS
STRIKE SPREADS

By Associated Press
New York, March 18.—Marine work-
ers, on strike here, threatened today to
withdraw crews from all boats operated
by the army and navy unless union
crews on chartered tugs and barges are
paid the same wage scale as is paid by
the railroad administration. The crews
of 14 tugs chartered to coal troopships
walked out yesterday when they learned
they were to be paid at the old scale
and not the increased wages under the
agreement recently made between the
unions and the railroad administration,
the army and navy and the shipping
board.

The sailing schedules of the Adriatic
and other troop ships are expected to
be delayed from two days to two weeks
from this new line of the harbor situa-
tion.

nicipal treasuries. The present statute
permits a tax levy of one and two-
tenths per cent without a vote of the
people and of two per cent when au-
thorized by popular vote. Cost of elec-
tions it is urged, makes the present law

the Barr bill to make available more
money from taxation.

The Chicago real estate board is re-
presented here today in opposition to the

on the order of first reading. Changes
are advocated in the measure, which
has administered support, on the
ground that the bill would restrict
building operations during the recon-
struction period and that it is loosely
drawn. Senator Kessinger is ready to
make a vigorous fight to preserve his
measure from amendment on second
reading.

Tax Slackers Must
Pay Total at Once

By Associated Press
Washington, March 18.—Collectors of
internal revenue today had instructions
to notify all persons, who failed to pay
the first installment of their income tax
last Saturday, that they thereby had
forfeited the privilege of making their
payments on the installment plan. All
such delinquents, the instructions is-
sued by Commissioner Roper said, must
pay their full tax upon demand of the
district collector.

Persons, who failed to file their re-
turns last Saturday, may avoid the pen-
alty of 25 per cent in addition to the
regular tax if a sworn statement is pre-
sented with their return giving a reason
for the delay. Otherwise revenue col-
lectors were instructed to enforce the
penalty.

DEFICIENCY BILL PASSES ILLINOIS HOUSE, 138 TO 0

**Provides \$1,610,000 for
Expenses of Charitable
Institutions.**

By Associated Press Leased Wire
Springfield, Ill., March 18.—(House)—By a vote of 138 to 0, the house today passed the deficiency bill appropriating \$1,610,000 for deficiency expenses of the charitable and penal institutions. The measure, carrying an emergency clause, had no opposition from the Democratic side which succeeded last week in defeating an emergency clause of a companion bill of Senator Curtis. The bill is expected to have the concurrence of the senate.

The house passed 127 to 0, Representative Pace's bill entitling persons not now teaching to take advantage of the teachers' pension fund if they have spent 25 years in the teaching profession.

A joint senate resolution introduced by Senator Dailey, asking the department to permit the 33rd division and the 149th Field Artillery Illinois troops, to parade as units in Chicago before being disbanded, was passed unanimously by the house.

Representative Shurtliff asked that the bill of Charles Curran increasing the salaries of circuit court judges be drawn back to second reading where it was amended to reduce the proposed salary from \$7,500 to \$6,500 annually and to eliminate the clause giving circuit court judges living expenses while serving on the appellate bench. It went to third reading.

Bills of Representative Caste of Chicago giving soldiers and sailors preference on civil service lists were advanced to third reading after amendments had been approved to include men in the naval reserve and to exclude persons convicted by court martial of refusing to do military duty on the ground of conscientious objections.

Representative Thomas Curran of Chicago today introduced in the house four bills relating to intoxicating liquors. One bill anticipating possible failure of federal measures as a result of court action defines alcoholic liquor as that containing "three per cent" of alcohol. Another bill amends the anti-saloon law to coincide with such a statute. A third bill by Curran provides for comparison of anti-saloon option petitions with legal registration lists and a fourth proposes reimbursement of persons damaged by the elimination of saloons when voted out by the people.

Other important bills introduced in the house today follow:

Mueller—Appropriating \$200,000 for a surgical institute for children in Chicago.

Frisch—Preventing hotels from changing their rates except on 60 days' notice.

Robbins—Validating community high school districts. A similar measure was introduced by Representative Pace.

A resolution of Representative W. H. H. Miller proposing five days a week sessions by the house was referred to the rules committee.

In the absence of Speaker Shanahan the chair was occupied by Representative William P. Holaday of Georgetown.

MOVIE BILL AMENDED

Springfield, Ill., March 18.—By a vote of 21 to 17 the senate today eliminated an amendment to the Buck motion picture censorship bill which gave Chicago what amounted to "home rule" relating to control of motion pictures.

The motion to strike out the amendment was made by Senator Essington of Streator.

The bill as amended was advanced to third reading.

After the Essington amendment had carried, Senator Austin of Chicago in a further attempt to defeat the intent of the measure, moved to strike out section ten of the bill which would prohibit local censorship after October 1 by invalidating all censorship ordinances after that day and preventing the enactment of others. The Austin motion was lost 22 to 13.

Consideration of the bill provoked much warm debate by senators who attacked the principle of motion picture censorship.

WHY Stringent Game Laws Are Needed in America

A recent Washington dispatch conveyed the impression that, due to a decision of the Supreme court, the federal government could no longer enforce the act to protect migratory birds. We are informed by B. G. Merrill, United States game warden at Hinsdale, that the dispatch is entirely misleading. The litigation in question involved the act of 1913, whereas a new law based on a treaty with Great Britain was passed by congress last year. Mr. Merrill says this law gives the government full power to provide closed seasons for migratory birds.

All lovers of wild life, as well as every right-minded sportsman, will be glad to know that federal protection for these birds has not been withdrawn. They will not be so happy to learn that the legislature of New York has passed a law to extend the time within which ducks may be shot on Long Island. The area involved is, of course, not very large, but any relaxation of the game laws should cause concern.

In France, which has been thickly populated for centuries, there is still wild game in the Argonne forest. Our men went gunning for rabbits, deer, and even wild boar. They are there because they are protected by rigid game laws. Unless we follow a policy of protecting the wild life in this country, France will still have game in its forests after America is entirely denuded.—Chicago Tribune.

WISE PROVISION OF NATURE

Why the Tip of Ermine Weasel's Tail Is Black Is Explained by Naturalist.

"Most scouts know that the ermine weasel changes to white on the coming of cold weather," says Dr. E. F. Bingle, the Scout naturalist in Boys' Life. "William E. Cram tells why the tip of the tail is black.

"Late in the autumn, or early in the winter, the ermine changes from reddish brown to white, sometimes slightly washed with greenish yellow or cream color, and again as brilliantly white as anything in nature or art; the end of the tail, however, remains intensely black and at first thought it might be supposed that this would make the animals conspicuous on the white background of snow; but in reality it has just the opposite effect. Place an ermine on new-fallen snow in such a way that it casts no shadow and you will find that the black point holds your eye in spite of yourself and that at a little distance it is quite impossible to follow the outline of the weasel itself. Cover the tail with snow and you can begin to make out the position of the rest of the animal, but as long as the tip of the tail is in sight you see that and that only."

Why Romans Dread Owls.

Some of the worst things ever said about the owl came from the elder Pliny. The Roman naturalist, who trusted more to others' observations than his own, and in whose writings fact and fiction are often inextricably blended, calls the owl an inauspicious and funeral bird. He is particularly severe upon the horned owl, to which he gives a very lugubrious character, calling it the monster of the night that never utters a cheerful note, but emits a doleful shriek or moan. This owl and the screech-owl were especially abhorred and dreaded by the Romans as messengers of death. As the former inhabited only deserted and inaccessible places, its appearance in cities was considered a very alarming omen. During the early days of the consulship a horned-owl happened to stray into the capitol of Rome, causing general consternation. To avert the disaster, which the round-faced prodigy was believed to portend, a lustration or general purification was ordered. Butler has referred to this incident in some amusing lines in Hudibras.

LEAGUE BRITISH PLAN, SAYS SEN. REED, MISSOURI

**Attacks Present Pact in
Speech Before Joint
Session Legislature.**

By Associated Press Leased Wire
Jefferson City, Mo., March 18.—The Missouri legislature in joint session today heard an address by U. S. Senator Reed, of Missouri, in criticism of the league of nations constitution.

Reiterating contentions that the league would impair American sovereignty, abrogate the Monroe doctrine, violate the American constitution, create a super-government of the world and force the United States into world wide difficulties and policing obligations, Senator Reed challenged assertions of its advocates that the league's decrees and powers would be merely advisory. He insisted that its action would be mandatory and involve "command of the world."

"There are a number of advocates of the league," said Senator Reed, "who seek to protect it against the indignation of the American people by arguing that the council has only the power to recommend and that it is then optional with the several nations to comply or to refuse to comply with the recommendation."

"Let us examine that miserable argument. If it be a true statement, then the league is backed by no force what-soever and the league is an innocuous thing. Why multiply so many words about armies and navies and force if there is to be no force?"

No Escape Possible

Asserting that the league charter contains on provision for withdrawal of nations from the league, Senator Reed continued:

"Those who conceived its structure did not intend to allow the United States to escape, once it should fatefully step within the entangling web."

"The American people were told that the constitution of the league had been conceived by American representatives and was being forced on reluctant Europe. It now transpires that the entire scheme from first to last, with some slight modifications, is the product of British statesmanship."

This might indicate, he said, why England would out-vote the United States five to one and be allowed to retain her fleet.

The executive council feature of the plan was attacked especially by the senator.

**U. S. Insurance Can
Be Paid to Estate**

By Associated Press Leased Wire
Washington, March 18.—The last legal obstacle to the issuance of a new insurance policy into which soldiers' insurance may be converted was removed today when Attorney General Palmer gave an opinion that the treasury might pay insurance to the estates of deceased persons as well as to specified beneficiaries.

The form of the policy was sent to Secretary Glass for approval and will be ready for final announcement within a few days.

HONOR MRS. BANKER—

In a farewell occasion yesterday afternoon at the home of Dr. and Mrs. Banker, of Franklin Grove, the Eastern Star ladies of that village honored one of their organization, Mrs. Irving Banker, who leaves in the course of a day or two to join her husband, son of Dr. and Mrs. Banker, at Utica, Ill., where he is engaged in the lumber business. About thirty ladies were present and a delightful social afternoon was enjoyed. Refreshments of ice cream and two kinds of cake were served. Mrs. Edward Pomeroy, of Lee Center, was among the guests.

CLASS ENTERTAINED—

Mrs. C. B. Rhodes' Sunday school class of the Christian church entertained a number of their friends with a St. Patrick's party at the home of Miss Dorothy Palmer last evening. Decorations, refreshments, and games were all in keeping with St. Patrick's day ideas and a delightful evening was spent by the guests, who numbered between forty and fifty.

K. T. BALL TONIGHT—

Anticipations of an especially delightful nature revolve about the Knights Templars' ball, to be given this evening at Rosbrook hall. An annual event, yet this year's promises to outdo in many ways those of preceding years. The Marquette orchestra will furnish the music.

JUBILEE SUPPER—

Members of Methodist Missionary societies are anticipating a treat in this evening's big Jubilee supper at the church, which is to be followed by an address by Miss Frances Patterson, who through much traveling in the Orient, is versed in its customs and will have much of interest to tell.

EPWORTH LEAGUE PARTY—

The Epworth League of the Methodist church held a St. Patrick's party at the church last evening which furnished entertainment for a large number of young people. The games and decorations suited the day and the refreshments also followed St. Patrick's customs.

FOR HUSBAND BIRTHDAY—

Mrs. J. Roy Knapp entertained at dinner Sunday in honor of her husband's birthday. The guests were: Mr. and Mrs. B. Knapp, Mr. and Mrs. Wm. G. Knapp, of this city, and Mrs. N. M. Stiff and little daughter, Madeline, of Chicago.

PARISH DINNER OF ST. PATRICK'S CHURCH SUCCESS

(Continued from Page 1.)

ried out his assignment in a very clever and entertaining manner, dwelling on the work that has been accomplished by the women of the world in the great war. Rev. Father Quinn gave a brief history of St. Patrick. Following a duet by Joseph Barry and Mrs. Frances O'Brien, Attorney John E. Erwin was introduced and spoke upon the subject, "Knights of Columbus." He briefly outlined the work that is now going on in France and Italy under the supervision of this great order and the accomplishment during the great war. Following his remarks, Paul Reilly sang, "My Wild Irish Rose," and as an encore number, sang, "Mother Machree."

Attorney H. S. Dixon.

Attorney Henry S. Dixon delivered the most stirring address of the evening, his subject being, "Impressions." The speaker opened his remarks by giving his initial impression, entire satisfaction and gratification of the elevating and enthralling talks and songs. He then recalled conditions as they existed one year ago, "the black days of last March and the blacker days of last April and May." In part, Mr. Dixon said:

"We well recall the advances which were being made by the German forces a year ago. At that time Germany had the war won but the Americans came upon the scene and stopped the Germans as they sped on toward Paris at Chateau Thierry and again at the Marne in April. During the months of June and July the Germans never gained another foot and then came the period of preparation over there. Then came September and with it came the autumn of vengeance, the beginning of the end and the breaking of the Hindenburg line. On September 26 came the battle of the Argonne when the American losses were great. When asked who won the war, we answer with all modesty and truth—the Americans won the war."

World Is Bankrupt.

"Now that the war is won, what have we to do? It is the same as after every great war, there exists great unrest. There was great distress after the Civil war had closed, but at that time the resources of our nation were even more strained than at this time. America will get through in a few years, but the rest of the world is bankrupt. There are great things to be done and the dream of centuries is again before us—let us have peace, a permanent peace such as is now being discussed at the peace conference. We must all follow our President in the judgment and when this peace is settled we will find that we have other things to do."

What Is Bolshevism?

"One of the first and most important things is the putting down of Bolshevism. Some ask, 'what is Bolshevism?' It is my impression that Bolshevism is nothing more or less than organized insanity and its disciples are the kind of people who would pour gasoline on a fire to put it out. There is no use trifling with such people as this. The country should be combed with a fine tooth comb and these Bolshevists gathered together, placed on ships and sent back to the countries from whence they came. As far as America is concerned, it should first arrange to prevent any more of this class of persons coming to its shores and then clean out thoroughly those who are here now."

Following this most stirring address, the chorus sang a medley of Irish airs and Rev. Father Foley was called upon to speak upon the subject, "True Americanism." In his own original manner, he delivered a very interesting talk in the time limited to his remarks and in which he discouraged the teaching of foreign languages in the schools in the United States. In his own language the speaker said, "We should have one people, one language, one flag and one America for us all." He defined true Americanism as being the gospel of Christ. His address closed the program of the evening after which the younger couples assembled at the Knights of

Columbus hall and enjoyed dancing until an early morning hour.

To Remove Unsightly Hairs —Other Aids to Beauty By Madame Marce

Except the electric needle, there is absolutely only one safe, sure and painless way to get rid of unsightly hairs and that is to dissolve them. Pastes, powders and razors only shave them off and in time they are as thick and as stubby as a man's beard. Fashions now demand that neck, arms and armpits be devoid of hairs. Any woman can get rid of these unsightly blemishes in a few minutes if she will but get from her druggist one ounce of sulfo solution for one dollar, and apply to the hairy place. It will take just about three minutes to dissolve the hairs away entirely, leaving the skin soft and white without a scar or irritation of any kind.

Blackheads are another of the unsightly blemishes that many women are troubled with. Squeezing and pinching do no good and leave the skin full of holes. The only way to get rid of these pesky things is to dissolve them. Get neroxin from your druggist for fifty cents, sprinkle a little on a hot, wet sponge and rub briskly over the blackheads; in about a minute they will be entirely dissolved, leaving the skin soft and smooth without a mark of any kind. Roughness and redness of the hands can very easily be overcome and the skin left soft and velvety by using at night the following simple cream lotion: dissolve one ounce of zintone (costing fifty cents at the drug store) in a pint of hot water. This makes a beautiful white satiny change a rough, red, spotted skin into one of velvety, peach-like loveliness and if used liberally, will soon

UTMOST DIGNITY AT PEACE TABLE

By Associated Press Leased Wire

Paris, Feb. 24.—(By Mail)—Top-hats and morning coats are commonly worn at the Peace Conference. Although top-hats made their re-appearance in Paris on Armistice Day, it was not until President Wilson arrived that they really began to flourish. The President was never seen on the street without his. According to French observers, he was one of the most carefully dressed of all the delegates. One has said that he never saw a frock coat sit so well on a man as on Mr. Wilson.

To M. Hymans, one of the Belgian delegates, is awarded the palm of being the Beau Brummel of the conference. A newspaper writer says of him: "It is meant as a compliment to him to say that he has the appearance of not having stepped out of a bandbox, but out of a tailor's window. The crease in his trousers is immaculate; his morning coat is remarkable for its beautiful tailoring, and his collar and tie are in perfect taste."

The morning coat is worn even by the Emir Feisal, son of the King of the Hedjaz, along with his white turban embroidered with gold.

William Martin, master of ceremonies at the conference, wears his morning coat unbuttoned. So does Premier Lloyd George, but Mr. Bonar Law puts the buttons of his to their intended use.

The British foreign minister, Mr. Balfour, refuses to join the top-hat procession. He clings to his soft one, thereby, in French eyes, committing a heresy.

Motorman Senn Fined for Violating Laws

Motorman John Senn, who was in charge of the street car which struck the Joe E. Miller hearse at the corner of College avenue and Third street yesterday morning about 8:30, was arrested yesterday afternoon by Chief Van Bibber. When arraigned before Justice A. H. Hanneken, he pleaded guilty to a charge of violating the traffic ordinances and was fined \$5 and costs, which he paid.

Orders have been issued to all of the members of the police department to arrest all motormen who fail to observe the ordinance relative to stopping their cars as they approach Third street at the intersection with College avenue.

Car Off Track At Prairieville Monday

The big interurban car, No. 104 on the S. D. & E. was derailed yesterday morning near Prairieville, tying up traffic for several hours. The recent heavy rains is believed to have caused the rails to spread causing the derailment. A force of men were sent to the scene from the local car barns and after considerable work, got the big car back on the track and traffic was again resumed about 2 o'clock.

One of the interurban cars was derailed near the Borden milk plant early Saturday evening which caused a considerable delay in traffic between the two cities.

BRANDS UNJUST MUCH CRITICISM AGAINST Y. M. C. A.

that the canteens, housed in some 1500 huts all along the fighting front and in the rest areas, were actually operated at a loss. In many instances transportation costs, insurance and other expense, connected with getting the goods in France, were so great that the sales commissary of the army, not having to stand these expenses, were able to undersell the Y. M. C. A., but there was no profit for it.

Lost \$5,000,000 a Month.

The speaker presented data to show that the Y. M. C. A. actually lost \$5,000,000 a month on actual sales during October, November and December, 1918. He also told of great losses in the money exchange department, where American dollars would be exchanged for 5.70 francs and then taken to Paris where it was exchanged for as low as 5.55 francs, the Y. M. C. A. taking the loss.

"Y" Lead Field.

Referring to the gifts to the men by the Knights of Columbus and the Salvation Army, he said, in all due respect to the two organizations, that they were operating on a relatively small basis. He said on January 1, 1918, the Salvation Army had 34 huts and the Knights of Columbus 60 huts as compared with 1505 operated by the Y. M. C. A. The work of the two organizations was splendid and won for them the highest commendation, but they did not attempt to cover the whole field as did the Y. M. C. A. He said the K. C. and the Salvation Army attempted the possible and did it, while the Y. M. C. A. attempted the impossible and nearly did it.

Gifts Were Enormous.

The Y. M. C. A. made gifts to doughboys amounting to \$1,400,000 up to January 1, 1919, not counting athletic goods valued at \$329,000, and books, magazines, entertainment and services of inestimable value. In one battle alone, that of St. Mihiel, the Y. M. C. A. distributed free to the Yankees, cigars, cigarettes, chewing gum, soap, etc., to the value of 100,000 francs.

Personnel Was Good.

The personnel of the Y. M. C. A. organization, generally speaking, was excellent. There were some men, Dr. Tittle said, who should not have been in the organization, but the personnel was recruited quickly and without opportunity to judge. The services of the Y. M. C. A. men were not limited to huts and canteens, but to the first line trenches and under heavy shell fire. It was the Y. M. C. A. man who served as stretcher bearer under fire, placed cups of hot chocolate to the lips of wounded men, sent money home for the boys before they went over the top, spoke words of cheer, and gave the unfortunate ones a Christian burial.

Transportation Short.

The lack of supplies was due largely to transportation break-down, Dr. Tittle said. Many of the great trucks were commandeered by the army when they were most needed. Dr. Tittle spoke in glowing terms of the doughboy. His democratic manner was of particular interest to all Europeans whom he met. "He was unselfish in all that the word implies. In closing the speaker made an appeal for the saving of the free world for which the doughboys fought. He advocated a league of nations to bring about this end, whether it be in its present form or some other form satisfactory to all nations.

The supper was served by the Ladies' auxiliary in the boys' department. About 75 men were present and thoroughly enjoyed the occasion. The menu was excellent and nicely served.

DIXON BOYS WENT WILD OVER NEWS

Albert Haueter, with Battery C, 123rd H. F. A., formerly old Company G, has sent to his parents, Mr. and Mrs. Albert Haueter, Sr., an excellent photograph of the battery which will be of interest to many Dixon people as in it are the likenesses of many of their boys. The picture was sent from Lorenzweiler, Luxembourg, where the battery is at present stationed. The picture will be displayed in a downtown store.

Mr. Haueter in writing home says that their captain gave them the glad news recently that they were to prepare to start home on May 1st or soon.

"We went wild over the news," said he. "Guess if we stood it this long we can a little longer. Will have a lot to tell when I do get home. Give my best regards to all the friends and neighbors."

GRASSHOPPERS IN MARCH? 'S FACT

Grasshoppers in March and the eleventh at that—could one believe it of that insect of hot July days? Yet Oliver Hoover, assistant at the Dixon Floral Co. greenhouses, found some hopping among the dead leaves and grass in his strawberry patch back of his residence on Avery avenue. Real hoppers, fully half grown, they were still alive when brought to The Telegraph office in a bottle on the seventeenth. The mild winter is probably the reason for their early appearance, but naturalists might compare notes on the proper time for their arrival.

Dixon Men to Golf Meeting at Rockford

O. M. Rogers and Harry E. Roe went to Rockford this morning where they are in attendance at the annual meeting of the Northern Illinois Golf associations. The meeting was called to order at 1:30 this afternoon in the Chamber of Commerce rooms. The time and place of the annual tournament of the association is to be decided at this meeting. Freeport and Rockford are both contenders for the annual tournament. The local delegates favor the holding of the annual tournament at the Sinnissippi club links at Rockford.

M. E. COMMISSION FINISHES STUDY OF ITALY'S NEED

Rome, Feb. 15. (Correspondence of The Associated Press).—An American Methodist commission has recently returned to Rome after an extensive trip through Italy to study social and economic conditions here so that American Methodists may know how best to aid Italy in her great task of reconstruction. The commission consists of Dr. Frank Mason North of New York, Theodore S. Henderson of Detroit, Bishop William F. Anderson of Cincinnati and Dr. B. M. Tittle, head of the Methodist Episcopal church here.

"Our journey through the redeemed regions was a sad revelation to us," said Dr. Tittle. "We have passed through hundreds of devastated cities and villages of the northern provinces. City after city, village after village is utterly and completely wrecked. Tens of thousands of homes have been entirely destroyed. Even where a house is left standing nothing remains but the bare walls and all the furniture has been removed."

Here and there we passed groups of returning refugees. They looked cold and forlorn yet did not complain. Until we saw it with our own eyes we did not begin to appreciate the magnitude of the difficulties which Italy has overcome, the enormous sacrifices she made to win the war in the Alps."

20 Illinois Boys Named in Reports

Eleven Illinois soldiers were named in the casualty list release for publication this afternoon by the war department, the summary of which was: Killed in action, 6; died from wounds, 7; died of disease, 52; wounded, degree undetermined, 5; wounded slightly, 87. Total, 157. The morning report, containing the names of nine Illinois men, was: Died of accident and other causes, 33; died of disease, 29; wounded severely, 18; wounded, degree undetermined, 22; wounded slightly, 25; missing in action, 4. Total, 123.

Lloyd George Urged to Remain in Paris

Paris, Monday, March 17.—(Delayed)—A letter, signed by President Wilson and Premier Clemenceau and Orlando, was handed to Premier Lloyd George this afternoon, strongly urging him to postpone for a fortnight his return to England, in view of the urgency of the problems before the peace conference. Mr. Lloyd George will submit the letter to the British cabinet, and it is understood, will act in accordance with its views.

Martinique is only one of the French West Indies. Its population of 185,000 slightly exceeds that of Guadeloupe, the second island of importance in the group. English Servants Are Plentiful Now

By Associated Press Leased Wire

London, Feb. 26.—(By Mail)—Demobilization is returning men servants to England in ever increasing numbers and the wealthy household has no difficulty now in hiring a butler, footman, groom, chauffeur, or page boy. The shortage of women servants, however, still becomes more acute. Unlike the women, the men have no objection to returning to their old indoor domestic jobs. The reason, according to a West End Employment agency manager, is that the male indoor servant is chosen mainly for decorative purposes—the women do the work.

Parlormaiders are now demanding the salary of a trained typist. Some are highly particular about hours, quality of food and conditions of employment. One notified an agency she would work only from 9 to 5, with time off for her meals.

It is said that the pre-war mistress is prepared now to be much more considerate of her servants than she was in the old days.

After the "Flu" —Fever or Cold Clean the Acidity and Toxic Poisons Out of the Digestive Tract

Millions are now suffering from the after effects of the deadly "flu," a fever or a cold. Their appetites are poor, they are weak, and they are waiting for their strength to come back. If these people could only realize that the return to health and strength would be greatly helped by giving attention to the stomach—that is, removing the acidity and toxic poisons from the entire digestive tract, making it act naturally, so that the body will receive the full strength of the food eaten—a great deal of suffering would be saved to humanity.

Everyone knows that the disease itself, and the strong medicines that have been taken, upset the stomach, leave it hot and feverish, the mouth dry, the tongue coated, a nasty taste, and no desire to eat. This is a poor foundation to build new strength on. Now, tens of thousands of people all over this country are using EATONIC for the purpose of cleaning these poisonous after-effects right out of the system and they are obtaining wonderful results—so wonderful that the amazingly quick benefits are hardly believable, just as shown in the remarkable letter which is published upon the request of this sturdy old Civil War veteran. He is 77 years old. Read what he says EATONIC did for him:

"I am an old soldier, past seventy-seven years. I had the Spanish influenza and it left my stomach in an awful shape. I tried three different doctors but got no relief. As a last resort I sent and got a box of EATONIC and to my greatest surprise the very first tablet I took helped me. I can now eat anything I want, and feel fine."

Yours faithfully,
Fowler, Indiana C. S. Martin
Dec. 4, 1918

P. S.: If you can make any use of this letter for suffering humanity, you are at liberty to do so. C. S. M.

This is only one case out of thousands. You should make the EATONIC test in your own case at once. You have everything to gain—not a penny can you lose, for we take all the risk. Your own common sense, your own feelings, tell you that a good appetite, good digestion, a good stomach, with the fever poisons and effects of strong medicines out of your system, will put you on the road to strong, robust health again.

You want to enjoy life again after you have battled with the "flu," fever or colds, or any other illness that has taken your strength. You want to get back your old-time vigor, be full of pep and enthusiasm—be able to work with ease, instead of listlessly, half-heartedly dragging out a mere existence.

Secure to take a box of EATONIC home with you today. We cannot urge this too strongly. If EATONIC fails to give you positive beneficial results, it will not cost you a penny. There is no risk—the benefit is surely all for you.

When Grandma Used to Cure Your Colds—

goose-grease and turpentine were all she needed—but they cured colds. Now science has added to and strengthened her good old remedy so that it gives

Relief in 20 Minutes

Science added Menthol, Wintergreen and other healing oils, the fumes of which, inhaled, give instant relief inside, where the real irritation is. At the same time the goose-grease and turpentine set up a counter-irritation that draws away the soreness.

Wonderful relief is felt almost instantly by the inflamed lungs, throat and nasal passages.

MEN-THO-EZE is the name of this new-old remedy—a positive relief for the simple ailments and a first-aid for the more serious ones. It relieves the most stubborn cold, usually with one application. Fever subsides, the phlegm is loosened and restful, healing sleep follows.

Keep a jar of Men-Tho-Eze ready at hand. It will prove a godsend. In opal jars, 30c and 60c

Mrs. Roy Roberts returned from the hospital in Rochelle Saturday evening. She had been a patient there for about three weeks, having had an operation for the removal of a goiter.

Mrs. Roy Smith, of Chicago, has been in town the past week to assist in the care of Mrs. Will Smith, who is failing rapidly in health.

Mrs. Alex Fiske and daughter, Mrs. Barbara Hawbaker, spent Thursday shopping in Aurora.

Mrs. and Mrs. Ezra Betz received the joyful news last week of the safe arrival in the states of their son, Milo, who has been two years service overseas, being one of our first boys to enlist and one of the first to get in France.

Fay Snow and Chester Martin arrived home Saturday evening with their honorable discharge. Both young men saw foreign service. The latter was shot in the arm and leg and sent to the hospital where it was found necessary to remove part of the bone of the leg.

Mrs. Philip Crouch went up to Rochelle Thursday evening to enter the Lincoln hospital to submit to an operation.

Russell Burnette, of Edmonton, Alberta, has been here the past week visiting with relatives. He has served in the English army for the past three years and recently received his discharge.

The young folks planned a dancing party to be held in the opera house last Thursday evening but it had to be postponed because of the bad weather and roads. The heavy rains of the last two or three days have made the roads almost impassable because of the deep mud.

The breaking of one of the electric light wires Saturday evening plunged our little town in darkness for the night. Consequently movie lovers were deprived of an evening's entertainment. Miss Ellen C. Mitchell has been very sick the past two weeks but is recovering now.

Mrs. Pearl Crowell received word last week that her son, Sergeant Donald Crowell has returned again to this side and expects him home with us soon.

Mrs. Emma Kelly has returned home from the Rochelle hospital where she has been the past two weeks, much improved.

GRAY HAIR BECOMES DARK AND BEAUTIFUL

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome.

Nowadays we simply ask at any drug store for "Wyeth's Sage and Sulphur Compound." You will get a large bottle of this old-time recipe improved by the addition of other ingredients, at very little cost. Everybody uses this preparation now, because no one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy and you look years younger. Wyeth's Sage and Sulphur Compound is a delightful toilet requisite. It is not intended for the cure, mitigation or prevention of disease.

Today's Market Report

(By Associated Press Leased Wire)

CORN MARKET IS HIGHER BECAUSE SMALL SUPPLIES

By Associated Press Leased Wire
Chicago, March 18.—With the visible supply of corn one of the smallest on record and with greatly increased European demand in prospect for foodstuffs the corn market today showed decided fresh strength. New high prices levels for the season were quickly attained. On the bulge, severe profit-taking sales led to something of a reaction. Opening prices, which ranged from the same as yesterday's finish to 1½¢ higher, with May \$1.42 to \$1.44 and July \$1.35½ to \$1.36½, were followed by a moderate sag but then by a general advance higher than before.

Oats sympathized with the upturn in corn. After opening ¼¢ to ½¢ higher, with May corn 64¢ to 64½¢, the market continued to ascend.

Provisions scored maximum gains. A sharp advance in hog prices furnished reason. Subsequently reports of the virtual settlement of the shipping strike at Buenos Aires brought about weakness and so too did word that an important conference was to be held as to hog prices. March nevertheless continued relatively firm. The close was unsettled, ¼¢ net lower to 2½¢ advance, with May \$1.42½ to \$1.42½ and July \$1.34½ to \$1.35.

Hog Situation to Be Discussed Soon

Washington, March 18.—Conditions caused by rising prices of hogs and pork products will be considered at a conference next Thursday at the food administration's grain corporation offices in New York under Frederick S. Snyder, former head of the meat division; Edgar Rickard, acting food administrator during Herbert Hoover's absence and Ben S. Allen, of the food administration.

In arranging the conference, Mr. Snyder today telegraphed Food Administration officials from Boston, that regarding Chicago reports that maximum hog prices would be fixed, the only action he had taken had been to urge packers to hold down hog prices.

The packers, food administration officials say today still were under license and their profits were controlled.

Short Day and Week is Desire of Miners

By Associated Press Leased Wire
Indianapolis, Ind., March 18.—Recommendations for a six-hour work day, a five-day week, an increase in wages of miners, and nationalization of coal mines of the country were made today by Frank J. Hayes, president of the United Mine Workers of America, in his address at the opening session of the policy committee of the organization here today. He also recommended that miners have the right to organize and to bargain collectively with the government in making wage scales in case of nationalization of mines.

Charles Anderson, Jr., spent a few hours in Sterling last evening on business.

ADVISE BREWERS THEY CAN MAKE BEER AS USUAL

United States Association Believes 2-3-4 Per Cent is Legal.

By Associated Press Leased Wire
New York, March 18.—The United States Brewers' association, comprising three-fourths of the industry throughout the country, announced today that copies of the opinion of Elihu Root and William D. Guthrie, advising brewers that they might proceed legally with the manufacture and distribution of beer containing 2½ per cent of alcohol, had been mailed to its 700 members. While the association has taken no action on the opinion, officials declared they "expected" many members would follow the example set by the Lager Beer Brewers' board of trade of New York and vicinity in deciding to ignore the government regulation restricting production of non-intoxicating malt beverages to those of less than one-half of one per cent alcoholic content.

ROPER MAKES MOVE

By Associated Press Leased Wire
Washington, March 18.—Whether the internal revenue bureau has authority to enforce its rule against the sale of beer containing one-half of one per cent or more of alcohol, will be put up to the department of justice, Internal Revenue Commissioner Roper today decided to ask for an opinion on the subject. The question was raised by announcement of New York brewers that they would resume manufacture and sale of beer containing not more than 2½ per cent alcohol, considering this non-intoxicating.

HOW ARE STERLING FOLKS TO GET HERE?

Louis Schuman and John Herbst made a business trip to Sterling by auto this morning. They report the roads on the north side of the river almost impassable while the Rock Island road from Dixon to Rock Falls is in fairly good condition, considering the recent heavy rains.

BOLSHEVIK ARMY SUFFERS DEFEAT

By Associated Press Leased Wire
Stockholm, Monday, March 17.—(Delayed)—Fighting has been resumed against the Bolsheviks along the entire Lithuanian front, according to an official statement issued at Lithuanian headquarters at Kovno. It reads as follows:
"This battle was resumed along the entire front on Saturday, the Bolsheviks suffering a severe defeat at Soda. Northwest of Vilna, at Pagiriai, we put the enemy to flight by a night attack. Southeast of Vilna we are advancing victoriously forcing the enemy to retire along the whole front."

ESTHONIANS MAKE PROGRESS

By Associated Press Leased Wire
Copenhagen, Monday, March 17.—(Delayed)—Esthonian forces are again masters of the situation on the Pskov front, according to an official statement issued by the Esthonian army headquarters, which says that the Esthonian have launched a powerful counter attack in that region.

Mississippi River is Near High Mark

By Associated Press Leased Wire
St. Louis, March 18.—The Mississippi river will reach a 25-foot stage at St. Louis by Saturday night, M. W. Hayes, chief of the St. Louis office of the U. S. weather bureau said today. This is five feet below flood stage here, but will cause a flood stage in the Mississippi and Illinois rivers at many points north of here.
Reports from Cairo, Ill., are to the effect that the flood condition of the Ohio river is growing worse and many are leaving the lowlands.

Iowa Will Nominate in Conventions Now

By Associated Press Leased Wire
Des Moines, Ia., March 18.—Iowa's state supreme and district court judges hereafter will be nominated in partisan judicial conventions, instead of in non-partisan primaries. The measure making the change was signed by Governor Harding today.
